NOFLY WP is a powerful IPM tool for GREENHOUSE & NURSERY ORNAMENTALS for use against insect pests inlcuding whiteflies, aphids and thrips.

NoFly WP is a microbial bioinsecticide containing a high concentration of the fungi *Isaria fumosoroseus FE 9901*. When applied this powerful organism contacts the pest, attaches itself to the body, germinates and kills the target. Afflicted insects will stop feeding within 24 hours and die in 5-7 days.

Use of NoFly WP will not harm beneficial insects (including honey bees), is labeled for organic use and has a 0-day pre-harvest interval.

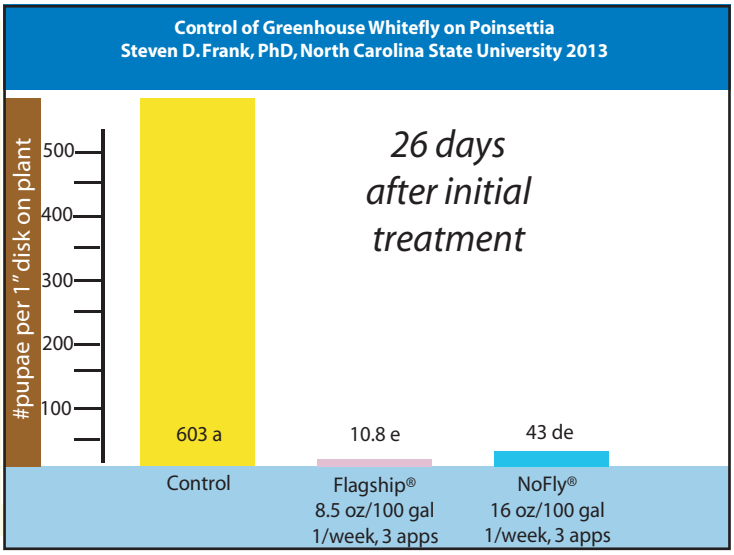

NoFly WP is a safe and effective tool to add to your pest management program.

NoFly WP is effective against:

* Whiteflies
* Aphids
* Thrips
* Mealybugs
* Mites

and other pests
