WarHammer™ is a powerful crop management tool in BLUEBERRIES for use against diseases and nematodes

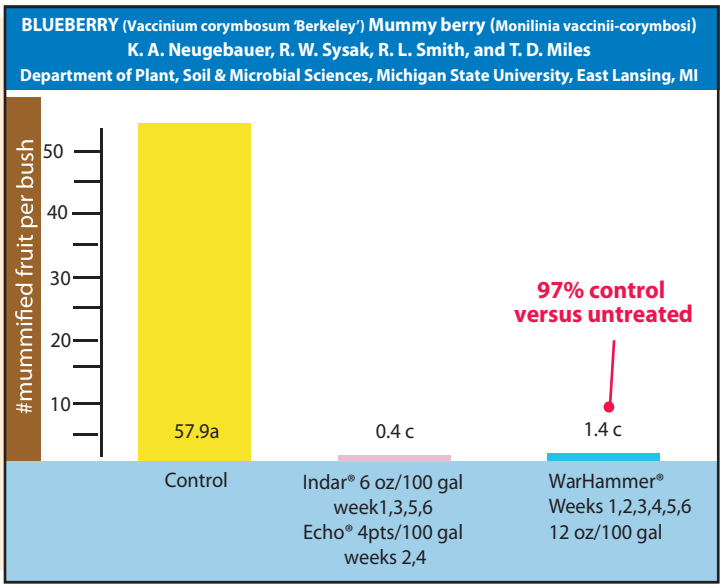

WarHammer is a high concentration of a natural bio-polymer that produces a powerful disease and nematode suppressing action. When applied, WarHammer induces a systemic response triggering the plant's natural defence mechanisms, allowing it to fend off harmful diseases and nematodes.

WarHammer is highly effectrive in suppressing Mummyberry (*Monolinia*), Powdery Mildew, Botrytis, nematodes and much more.

WarHammer is an excellent tool for integrated pest management (IPM)

- Perfect rotational partner
- No Resistance issues
- Compatible with fertilizers
- Dissolves easily into solution
- 0-day PHI
- Non toxic

WARHAMMER
2.5 gal jug
